

Upsell Strategy & Future Revenue Map

INTERNAL ONLY — Never share with client Date: March 26, 2026

1. IMMEDIATE UPSELLS (Present at or after BOD meeting)

These are things they need NOW, that naturally follow Phase 1.

Upsell	Price	Pitch Timing	One-Liner
Custom domain setup (matermariahomes.com DNS, SSL, email)	\$200	During meeting	“Your site is ready, we just need to point the domain”
Google Business Profile setup + optimization	\$300	After meeting	“So when someone Googles ‘Mater Maria Kanjirappally’, your listing appears with photos, reviews, map”
WhatsApp Business API (auto-replies, catalog, broadcast)	\$500 setup + \$50/mo	Item 8 (social media)	“Right now leads WhatsApp Rajeev directly. With Business API, you get auto-replies, lead tagging, and broadcast to all prospects”
Google Analytics + Search Console setup with monthly report	\$200 setup + \$100/mo	Item 6 (feedback)	“In 30 days I can tell you exactly how many people visit, where they’re from, what they click”
QR code + NFC card for brochures/business cards → website	\$150	Item 4 (brand)	“Scan this QR on any printed brochure, goes straight to the website”

Total immediate upsell potential: \$1,350 one-time + \$150/mo recurring

2. PHASE 2 UPSELLS (Weeks 1-6 after meeting)

These extend naturally from the Phase 2 multi-page buildout.

Upsell	Price	Trigger
Blog content writing (SEO articles targeting NRI keywords)	\$150/article or \$500/mo (4 articles)	Phase 2 blog setup
Email marketing setup (Mailchimp/Resend — welcome sequence, investor nurture)	\$800 setup + \$100/mo	Lead capture is live but no email follow-up exists
Investor PDF proposals (auto-generated per tier, personalized)	\$600	Board wants something to send NRI contacts
Multi-language (Malayalam + Hindi versions of key pages)	\$1,500	Kerala local audience + Hindi-belt NRIs

Upsell	Price	Trigger
Virtual tour hosting page (embed Matterport when ready)	\$400	Paul Jose provides 3D scans in Item 5
Construction progress page (monthly photo/video updates)	\$300 setup + \$100/mo	Board wants to show investors that work is happening
Total Phase 2 upsell potential: \$3,600 one-time + \$700/mo recurring		

3. PHASE 3 UPSELLS (Months 2-4)

These are bigger plays that come once the website is generating leads.

Upsell	Price	Value Prop
Investor portal (login, dashboard, document vault, dividend tracker)	\$5,000-8,000	“Your investors can check their position, download agreements, see construction updates — 24/7 without calling your office”
Razorpay payment gateway for booking deposits	\$1,500 setup	“Accept ₹1L-30L deposits online. NRIs can pay from UAE/US without wire transfer hassle”
CRM integration (HubSpot — lead scoring, pipeline, automation)	\$1,200 setup + \$0/mo (free tier)	“Know which leads are hot, which are cold, and auto-send follow-ups”
Google Ads management	\$500/mo + ad spend	Deepika’s segment (Item 7) creates the need. You build the landing pages.
Facebook/Instagram ad campaigns	\$400/mo + ad spend	Same — Deepika creates demand, you fulfill digitally
Video production (cinematic property walkthrough for YouTube/social)	\$1,000-2,000	You already have the Ken Burns pipeline and ffmpeg stack
Total Phase 3 upsell potential: \$9,200-12,700 one-time + \$900/mo recurring		

4. RECURRING REVENUE MODEL (The Real Money)

One-time projects are how you start. Recurring revenue is how you survive.

Service	Monthly	Annual	Margin
Website hosting + maintenance	\$400	\$4,800	90%+ (Vercel free tier)
Blog content (4 articles/mo)	\$500	\$6,000	70% (AI-assisted writing)
Email marketing management	\$200	\$2,400	85%
Google Ads management	\$500	\$6,000	60%
Social media management	\$400	\$4,800	70%
Analytics + monthly report	\$100	\$1,200	95%
Total retainer potential	\$2,100/mo	\$25,200/yr	

This single client could generate \$25K/year in recurring revenue if you land even 50% of these retainer services.

5. BOARD MEMBER VERTICALS — FUTURE BUSINESS

This is the long game. Every board member has a network and potentially their own digital needs.

Board Member	Role	Vertical Opportunity
Mar Jose Pulickal	Bishop / Patron	Diocese website, parish network (50+ churches), Catholic school websites, retreat center bookings
Fr. Mathew Puthumana	Director, Pravasi Apostolate	NRI community portal, pravasi events platform, diaspora directory, donation gateway
Rajeev Abraham	Chairman	His other business ventures (UAE-based). NRI investment platforms. Kerala diaspora community projects.
Thomas Abraham	Managing Director	His business/company website. Real estate portfolio expansion.
Paul Jose	Director / Consultant	Architectural firm website. Construction company digital presence. Project portfolio showcase.
Other board members	Various	Their personal businesses, family ventures, church/community organizations

How to Cultivate Future Business

During the meeting: - Be professional, concise, and impressive - Don't pitch anything to individual board members - Let the WORK speak — they'll come to you

After the meeting (weeks 1-4): - Rajeev will tell you "Fr. Mathew was impressed" or "Paul Jose wants something for his firm" - When that happens, say: "I'd be happy to discuss. Let me put together a quick proposal." - Treat each lead as a new project, not a favor

After Phase 2 launch (months 2-3): - The website will have analytics showing real traffic, real leads - Use those NUMBERS to pitch: "matermariahomes.com generated 47 leads last month. Imagine what we could do for [their business]."

The Diocese opportunity is massive: - A diocese typically has 50-100+ parishes - Each parish needs: website, event management, donation gateway, newsletter - If you build a template system once (Next.js + CMS), you can deploy parish sites at \$500-1,000 each - 50 parishes x \$800 average = \$40,000 in project revenue - 50 parishes x \$100/mo maintenance = \$5,000/mo recurring = \$60,000/yr

6. PORTFOLIO STRATEGY

What Mater Maria Does for Your Portfolio

This is your **anchor project**. It proves: - You can handle luxury/premium design (not just tech startups) - You can work with governing boards and institutional clients - You can deliver under pressure (18 days, 45 deploys) - You can handle real estate with investment components - You can do mobile-first, SEO, security, accessibility

Who Sees This Portfolio Piece

Audience	What They Care About	How You Frame It
Other real estate developers	“Can you build something like this for us?”	Lead with the investment tier system and lead capture ROI
UAE businesses	“You’re Dubai-registered and can deliver?”	Lead with IFZA credentials and matermariahomes.com as proof
NRI entrepreneurs	“Can you build my India project’s website from Dubai?”	Lead with the cross-border delivery model
Church/religious organizations	“This looks trustworthy and respectful”	Lead with the governance board section and community focus
Kerala SMEs	“How much?”	Lead with the value — “\$4,000 for what agencies charge \$15,000+”

Portfolio Case Study Structure

Write this after Phase 1 payment clears:

CASE STUDY: Mater Maria Homes

Challenge: Kerala's premier wellness estate needed a digital presence to attract NRI investors and prospective residents, with zero existing online footprint.

Solution: Custom-coded luxury landing page with 25 animated sections, investment tier system, and automated lead capture. Built in 18 days with AI-augmented development.

Results:

- [X] leads generated in first 30 days
- [X] page views from [X] countries
- [X]% mobile traffic (validates mobile-first approach)
- Sub-2-second load time globally
- Live at matermariahomes.com

Technologies: HTML5, CSS3, GSAP, Lenis, Web3Forms, Vercel CDN

Fill in the numbers after 30 days of analytics data.

7. PRICING ESCALATION STRATEGY

You charged \$4,000 for this. Here’s how your pricing should evolve:

Client #	Project Type	Price	Why
1 (Mater Maria)	Luxury landing page	\$4,000	First client, friend referral, portfolio building
2-3	Similar scope	\$6,000-8,000	You have a case study now

Client #	Project Type	Price	Why
4-5	Similar scope	\$8,000-12,000	You have 3+ projects and testimonials
6+	Similar scope	\$12,000-15,000	Market rate for this quality
Retainer clients	Monthly services	\$1,500-3,000/mo	Once you have 3-4 retainer clients, you have stable income

The goal: 3 retainer clients at \$2,000/mo average = \$6,000/mo = \$72,000/yr. That's your baseline. Everything else is upside.

8. WHAT TO SEED DURING THE BOD MEETING (Subtle)

These are NOT pitches. These are seeds you plant that grow into future business:

During Item 3 (your website presentation): > “The analytics dashboard — which we’ll set up next — will show you exactly where your visitors are coming from. UAE, US, UK... you’ll know.” (*Seeds the analytics retainer*)

During Item 5 (Paul Jose’s architecture segment): > “Paul, once you have the final floor plans, we can integrate interactive floor plan viewers on the website. Visitors could explore each unit type in detail.” (*Seeds Phase 2 work + positions you as collaborative*)

During Item 7 (Deepika’s advertising): > “Deepika, I can build dedicated landing pages for each ad campaign. That way we can track exactly which ads generate leads.” (*Seeds Google Ads landing page work*)

During Item 8 (social media): > “All the social media profiles should link back to the website. We’ll also make sure every page has proper sharing metadata — when someone shares a link on WhatsApp, it shows a rich preview with image and description.” (*Seeds social media management integration*)

During Item 9 (other business): > “One quick thought — if any board members or their organizations need digital presence, we offer the same quality at NeoVibe. Happy to discuss offline.” (*Plants the seed for future referrals — ONE sentence, no more*)
