

A PROPOSAL FOR TIM & ANDREW

Your overflow, our delivery.

When YQG's 2027 waitlist can't take another client, we ship the build under your brand.

"We usually just end up hiring someone else."

— TIM WARNHOLTZ, CALL ON APRIL 22

With a waitlist into **2027** and a new client every 48 hours, hiring-someone-else has become a repeating decision at YQG. Here's a cleaner version of it: a dedicated white-label delivery team you engage on-demand, invisible to your clients, priced as a percentage of the project you sold.

HOW IT WORKS

01

YQG sells.

Client discovery, scope, pricing, contract — all on your side. Your brand, your relationship.

02

TAURUS ships.

We build to YQG's quality bar under NDA. No client-facing presence. No co-marketing. Zero footprint.

03

YQG invoices.

You bill the client at your rates. 40–50% of the project fee flows to us. You own the renewal.

WHAT WE DELIVER · WHERE IT FITS YQG

- Next.js / React custom sites under 10 days
- WordPress / Elementor for simple builds
- E-commerce (Shopify, WooCommerce, custom)
- CRM and booking portals
- Custom AI integrations (RAG, chat, voice agents)
- Native app dev (React Native, Swift, Kotlin)
- Compliance platforms (PQC, privacy, audit trail)
- Heiro / blockchain plumbing when clients ask

WHY THIS WORKS FOR A 10-PERSON WINDSOR SHOP

No culture clash. Our team works NDA-backed and invisible to your clients. They see YQG, always.
No capacity risk. You absorb demand without the overhead of a permanent hire you can't yet justify.
No client leakage. Zero co-marketing, zero reach-out, zero IP shared across clients. Ever.

THE PILOT

Pick one project from your 2027 backlog.

We price it at cost. You scope, we build, you ship. 30-day delivery commitment. No commitment beyond that single project.
