

Effin's Speaking Notes — BOD Meeting

INTERNAL ONLY. Do not share or display.

ITEM 2: Your Profile (5 minutes)

Opening (30 seconds): > “Thank you, Rajeev. Good [morning/afternoon] to the Board. My name is Effin Fernandez. I'm the founder of TAURUS AI Corporation, a technology company registered in IFZA Dubai Silicon Oasis. Our digital marketing division, NeoVibe by Taurus AI, specializes in premium web experiences for real estate and hospitality.”

Company credibility (1 minute): > “We are a UAE Free Zone registered company — License #68122, Registration #66075. We leverage AI-augmented development to deliver enterprise-quality digital products at speed and cost that traditional agencies cannot match. Our technology stack includes the same infrastructure used by Nike, The Washington Post, and Hulu — deployed on Vercel's global CDN with 99.99% uptime.”

Why you (1 minute): > “For Mater Maria, our approach was to build a website that matches the premium nature of the project — not a template, not a WordPress site, but a custom-coded experience with cinema-quality animations. We've invested 80+ hours over 18 days to get this right, including 45 deployment iterations based on direct feedback from the team.”

Engagement model (30 seconds): > “Going forward, we operate in phases. Phase 1, which we'll present now, is complete. Phases 2 and 3 are proposed with separate timelines and budgets. Every phase has clear deliverables, approval gates, and a defined feedback process.”

Closing (30 seconds): > “I'm based between Dubai and Canada, and I work closely with Rajeev and the team via WhatsApp and video calls. Let me now walk you through what we've built.”

ITEM 3: Website Presentation (10 minutes)

Setup

- Open matermariahomes.com on laptop, connect to projector/screen
- Have phone ready to show mobile version
- Do NOT show code or technical dashboards

Walkthrough Script

Hero (1 minute): > “This is the first thing any visitor sees. A cinematic video of the estate, the ‘Living Refined’ headline, and two clear actions — explore or invest. Notice how it fills the entire screen. On mobile...” [pick up phone] “...it adapts perfectly. The ‘BUY / INVEST’ button stays visible at the bottom at all times.”

Scroll down — Our Story (30 seconds): > “As they scroll, the story unfolds. This section introduces Mater Maria's philosophy. The text animates in as you arrive — it's designed to feel like the pages of a premium brochure.”

Vision & Mission (30 seconds): > “Clear positioning of the Diocese's vision. This builds trust immediately.”

Gallery (30 seconds): > “Professional property renders. On mobile, these swipe horizontally — very natural on a phone.”

Ecosystem — 48 Facilities (1 minute): > “This is where the project really shines. 48 facilities presented as swipeable cards. You can drag them, swipe on phone, or use the arrows. Medical, wellness, organic farming, social spaces — it’s all here in an engaging format.”

Residences (1 minute): > “Six residence types. Each one shows the specifications, pricing, and — this is key — each has a gallery you can expand.” [Click one] “See? Full-screen lightbox with navigation. On mobile, you swipe through them.”

Investment Tiers (1 minute): > “Silver, Gold, Platinum. When a visitor clicks ‘Select Tier’...” [click] “...it scrolls to the contact form with the tier pre-filled. The visitor’s intent is captured automatically.”

Governance Board (30 seconds): > “All nine board members displayed with photos and credentials. This is one of the most important sections — it tells visitors that this project has real governance, real leadership, and the backing of the Diocese.”

Contact Form (30 seconds): > “Every enquiry comes directly to your team’s email. Name, phone, email, and their intent — are they a potential resident or an investor? The form also connects to WhatsApp.” [Show WhatsApp button]

Mobile Demo (1 minute): > [Hold up phone] “I want to show this on mobile because 70-80% of your audience — especially the NRI community in UAE and abroad — will see this on their phone. Watch how everything adapts. The sticky CTA bar at the bottom. The swipeable galleries. The form is optimized for phone keyboards.”

Close (30 seconds): > “This website loads in under 2 seconds anywhere in the world. It’s optimized for Google search. It captures leads while you sleep. And it represents the quality of Mater Maria. I’ll now hand over to Praveen for brand integration.”

ITEM 6: Board Feedback — Your Role

You are LISTENING, not defending.

When feedback comes: - Nod and write it down - Say: “Thank you, that’s noted. We’ll address that in the refinement phase.” - Do NOT explain why something is the way it is (unless directly asked) - Do NOT promise changes on the spot - Do NOT give timelines for individual changes

If someone asks “can we change X?”: > “Absolutely — we can accommodate that. I’ll include it in our next update cycle.”

If someone says “I don’t like the color/font/layout”: > “I appreciate that feedback. Could you describe what feeling you’d prefer? Warmer? More traditional? That helps me get it right.”

If someone’s nephew “knows computers”: > [smile] “That’s great. Happy to share the technical documentation with anyone on the team who’d like to review it.”

If the Bishop speaks — whatever he says, agree first: > “That’s an excellent point, Your Grace. We’ll make sure that’s reflected.”

ITEMS 4, 5, 7, 8: Your Role as Listener

During Praveen (brand), Paul Jose (architecture), Deepika (ads), and social media segments:

Take notes on what affects the website: - Brand guidelines Praveen mentions → Phase 2 design system - Actual floor plans from Paul Jose → Replace placeholder renders - Ad landing page needs from Deepika → Dedicated landing pages in Phase 2 - Social media accounts → Link integration, OG image optimization

If asked a question during someone else's segment: > “From a website perspective, we can integrate [X] in Phase 2. I’ll coordinate with [Praveen/Paul/Deepika] on the specifics.”

TIMING DISCIPLINE

Your Segment	Target	Max
Item 2 (Profile)	4 min	5 min
Item 3 (Website)	8 min	10 min
Total speaking	12 min	15 min

Do NOT go over 15 minutes combined. Board members lose attention after 10 minutes of any single presenter. Keep it tight. They’ll be more impressed by brevity than by thoroughness.

WHAT TO BRING

- ☐ Laptop with maternariahomes.com loaded (test beforehand)
- ☐ Phone with the site loaded (for mobile demo)
- ☐ Printed copies of the Meeting Agenda (07-BOD-MEETING-AGENDA.html) — one per person
- ☐ Printed Service Agreement (02) — one copy for Rajeev to review
- ☐ Printed Invoice (01) — give to Rajeev AFTER the meeting, privately, not during
- ☐ Business cards if you have them
- ☐ Notepad + pen for taking feedback notes

DO NOT bring or show during the meeting: - The Strategy Document (internal) - The Brutal Honest Assessment (internal) - The pricing research (internal) - Any code or GitHub

AFTER THE MEETING

1. Within 24 hours: Email a thank-you note to Rajeev summarizing action items
2. Within 24 hours: Send the Service Agreement + NDA for signature
3. Within 3 days: Address top 3 feedback items from the board (quick wins only)
4. Within 7 days: Send Invoice with a polite “as discussed” framing
5. Within 14 days: Present Phase 2 proposal with timeline and first milestone payment
